Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Quercetin, 500 mg Caps, a dietary supplement.

Statements being made in the labeling of Quercetin:

(1) Quercetin is a naturally occurring bioflavonoid found in red wine, onions, and green tea. Quercetin possesses powerful antioxidant properties, and like other bioflavonoids has the ability to stabilize cell membranes. These qualities contribute to Quercetin's ability to support healthy histamine levels and balanced immune function. In addition, clinical studies have demonstrated that Quercetin may support prostate health.

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. NOW Foods possesses substantiation that the statements are truthful and not misleading.
